

JESSIE TARROSA

REACT DEVELOPER

Gorordo Ave, Cebu, Ph | 09192106060 | creators.nuke@gmail.com

PROFILE SUMMARY

As a seasoned developer with five years of experience in building web applications, I am well-versed in the latest technologies and industry best practices. My expertise in JavaScript, ReactJS, and Redux, allows me to create dynamic and responsive user interfaces. I have a strong understanding of databases and the ability to integrate and manage data effectively. I have experience in building scalable and cost-effective back-end systems, as well as knowledge of cloud hosting and deployment. Additionally, my proficiency in various front-end technologies, such as CSS and HTML, allows me to create visually appealing and responsive web pages. I am also experienced in project management and collaboration tools such as Git, Github, and JIRA. I am a problem-solver and a team player who is always eager to learn new technologies and improve the quality of my work. I am confident that I can deliver high-quality, efficient and maintainable code, and I am always looking for opportunities to grow and develop as a developer.

Core Programming Language (in years): JavaScript (5)

Core Framework: ReactJS (5), NodeJS (5)

Core Database: MongoDB (3), Firebase (1), PGSql (2), MySQL (1)

Additional Skills: Serverless NodeJS (2), AWS Lambda Development (2), TypeScript (3), ExpressJS (4), DevOps (2), AWS (2), JSON (3), SaaS (2), CSS (5), HTML (5), Git (5), Github (5), Gitlab (2), BitBucket(2), JIRA (2), Postman (1), Authentication API Integration (1), CrudAPI (1), Paypal (0.6), Payment API Integration (2), Kubernetes (1), Metamask (1), Polygon (1), Chartjs (1), Moralis.io (1), AuthO (2), Postgres (2), Babel (3), Ethers (1), Web3 (1), Stripe (1), Prisma (1), PlanetScale (1), Tailwind (1), Vercel (1), Zustand (1), openai (1), Keycloak (1)

WORK EXPERIENCE

Full Stack Developer

March 2022 – Current

Codev & Permission.io

- Design and develop web3 applications using React.js for the frontend and Node.js for the backend.
- Create user-friendly and responsive interfaces that interact seamlessly with blockchain networks.
- Integrate web3 libraries and tools (such as Web3.js, ethers.js, or Moralis) to interact with blockchain networks.
- Handle blockchain transactions, wallet management, and user authentication securely.
- Integrate with external APIs and services for data retrieval and processing.
- Manage and manipulate blockchain data, such as fetching token balances, transaction histories, and blockchain events.
- Design and maintain databases (PostgreSQL) to store application data and user information.
- Create and maintain documentation for code, APIs, and development processes.

- Collaborate with cross-functional teams, including blockchain developers, designers, and product managers.
- Keep up-to-date with the latest trends, updates, and advancements in blockchain and web3 technologies

Technology: React, Javascript, Typescript, NodeJS, Webpack, Redux, Material UI, SCSS, CSS, Docker, Kubernetes, Passbase, Metamask, Polygon, Chartjs, Moralis.io, Passbase, auth0, Postgres, babel, Ethers, web3

Full Stack Developer

December 2022 – January 2023

Fuxam

- Strong experience with React, Javascript, and TypeScript for building user interfaces and web applications
- Knowledge of NodeJS and NextJS for building server-side rendered applications
- Familiarity with Stripe for handling payments
- Understanding of Prisma for managing databases
- Experience with PlanetScale for auto-scaling and high-availability
- Proficiency in SCSS, CSS, and Tailwind for styling and layout
- Experience with Vercel for deployment and hosting
- Knowledge of Zustand for state management
- Familiarity with OpenAI for natural language processing and machine learning
- Experience with Chartjs for creating data visualization
- Understanding of implementing best practices for security and performance
- Ability to work independently and in a team-oriented environment.

Technology: React, Javascript, Typescript, NodeJS, NextJS, Stripe, Prisma, PlanetScale, SCSS, CSS, Tailwind, Vercel, Zustand, openai, chartjs

Advanced App Engineering Analyst / React Developer

July 2021 – March 2022

Accenture Inc

- Strong experience with React, Javascript, and TypeScript for building user interfaces and web applications
- Knowledge of NodeJS for building server-side applications
- Proficiency in SCSS, CSS, Bootstrap, and Material UI for styling and layout
- Understanding of Redux for managing application state
- Experience with Serverless Lambda for building scalable and cost-effective backend systems
- Familiarity with AWS for cloud hosting and deployment, including Cloudfront, S3 Bucket, and CI/CD
- Knowledge of Redshift for data warehousing and analytics
- Proficient in SQL for managing databases
- Familiarity with JIRA for project management and tracking
- Experience with Chartjs for creating data visualization
- Understanding of implementing best practices for security and performance
- Ability to work independently and in a team-oriented environment.
- Familiarity with ESLint and Prettier for code linting and formatting.

Technology: React, Javascript, Typescript, NodeJS, SCSS, Bootstrap, Material UI, CSS, Redux, Serverless Lambda, AWS, Redshift, SQL, JIRA, ChartJS

Fullstack Developer

January 2020 – June 2021

Freelance

- Strong experience with React, Javascript, Express, and NodeJS for building web applications
- Understanding of Redux for managing application state
- Experience with Paypal API for handling payments
- Proficiency in SQL and MongoDB for managing databases
- Familiarity with integrating third-party APIs
- Proficiency in Material UI, SCSS, and CSS for styling and layout
- Understanding of implementing best practices for security and performance
- Ability to work independently and in a team-oriented environment.
- Familiarity with ESLint and Prettier for code linting and formatting.

Technology: React, Javascript, Express, NodeJS, Redux, Paypal API, SQL, MongoDB, Third-party API, Material UI, SCSS, CSS

Web Developer/Graphic Designer

May 2015 – May 2016

Landasia Real Estate and Development Corp

- Create Landing Page
- Creating Subpages for marketing and posting available properties
- Setting up subdomain pages
- Creating responsive design (small to big screen)
- Creating and maintaining business pages
- Designing brochures, tarpaulins, magazine and flyers
- Troubleshooting and debugging code application

Technology: PHP, Wordpress, HTML, CSS, Javascript, Photoshop, Adobe Illustrator

EDUCATION

BS in Information and Communication Technology

April 2016

Cebu Technological University
